

Milkiwean

# BabyMilk

From  
day 1

## The efficient and effective alternative to sow milk

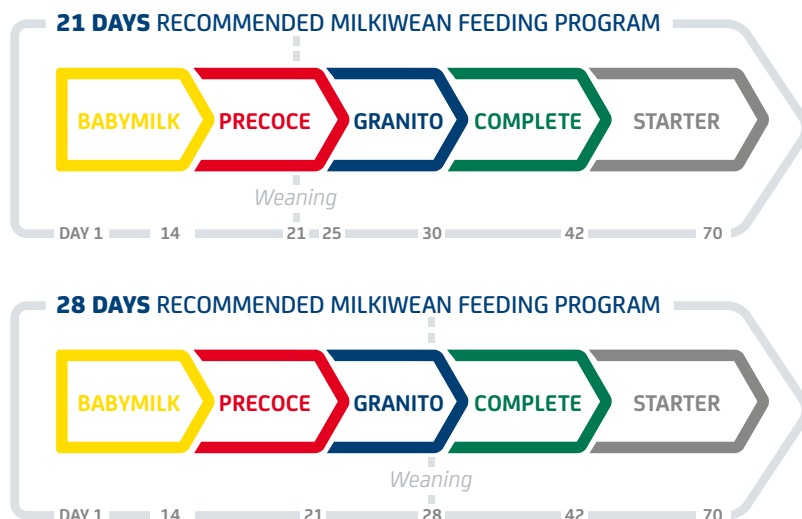

- ◆ Additional liquid feed in the farrowing pen (from day 1)
- ◆ Suitable for small piglet management in the nursery\*
- ◆ Stimulates feed intake
- ◆ Smooth transition to solid feed
- ◆ Dissolves easily with high stability
- ◆ Suitable for manual and automatic feeding system

\* More information about the applications of Milkiwean in small piglet management can be found in the Milkiwean small piglet management leaflet ([www.milkiwean.com](http://www.milkiwean.com))

## FEED SCHEDULE

AGE (DAYS)	FEEDINGS (PER DAY)	AMOUNT (PER LITTER/ FEEDING)
1*	1	75 -125 ml
2	2	150 - 200 ml
3-4	2	200 - 300 ml
5-8	2	400 - 600 ml
9-13	2	750 - 1250 ml
13-14	1	1000 - 1500 ml

\* DAY 1 = Day of birth. From 12 hours after birth start with feeding.

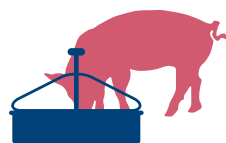

### What is Milkiwean BabyMilk?

- A complete milk replacer based on high quality dairy products.
- Formulated to approach sow milk in the best possible way.
- Supplemented with a balanced blend of easily digestible fats and oils.

### How to use Milkiwean BabyMilk?

- Ensure sufficient colostrum. Provide small amounts of Milkiwean BabyMilk from 12 hours after birth. The dosage is 250 grams/litre of luke warm water (preferably 45°C).
- Provide small quantities of fresh feed at regular intervals, for a fast intake, to prevent rests of BabyMilk in the trough.

### MILKIWEAN FEEDER

Milkiwean BabyMilk is suitable for manual and automatic feeding. We recommend the Milkiwean Feeder for automatic feeding.

*More information? See the Milkiwean Feeder leaflet.*
